

Promeg is our signature blend of polypropylene sheet. We make it right here in Australia. Printable. Durable. Sustainable. It is an excellent design option for a wide range of commercial, industrial and environmental uses. And we can even custom formulate a sheet to meet the specific demands of your brief.

SPECIFICATIONS

| Gauge | 0.38 mm | 0.6 mm | 0.8 mm | 1.4 mm | 1.9 mm |
|-------|---------------|---------------|---------------|---------------|---------------|
| Size | 685 x 1220 mm | 665 x 1220 mm | 665 x 1220 mm | 650 x 1360 mm | 650 x 1360 mm |

PROPERTIES

Promeg is an extruded polypropylene sheet, incorporating a high cosmetic finish and high standards of mechanical and environmental integrity. Its properties allow for a wide range of uses and finishes.*

| Durable | Light weight | Colour range | Clear range | Printable | Versatile | Customisable |
|---------|--------------|--------------|-------------|-----------|-----------|--------------|
| ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |

*Promeg has a distinct weight advantage over comparable substrates such as PET and PVC.

USES

Designers continue to find new possibilities for this versatile material. The main uses are listed below.

| Signage | Architecture | Packaging | Retail display | Stationery | Animal health | Horticulture |
|---|--|--|---|---|---|--|
| - Exterior - Interior - Backlit - Safety | - Cladding - Public spaces - Sculptural - Shop fit outs | - Consumer - Promotional - Retail - Medical | - Counter units - Dump bins - Floor stands - Hangsells | - Binders - Carry cases - Dividers - Folders | - Collar cones - Pet carriers - Vaccine packs | - Covers for tubs & pots - Root barriers - Tree guards |

CUSTOMISATION

We can custom formulate a unique sheet to meet the specific demands of your brief.*

| Custom colour | Custom gauge | Custom size | Custom scent | Custom surface finish/texture | Custom UV stabilisation | Custom freezer-proofing | Custom anti-microbial |
|---------------|--------------|-------------|--------------|-------------------------------|-------------------------|-------------------------|-----------------------|
| ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |

*Customisation subject to minimum order quantities.

SUSTAINABILITY

- ✓ We make Promeg right here in Australia at our manufacturing plant in Bayswater, Victoria. This considerably reduces the sheet's carbon footprint.
- ✓ We recycle all of our post industrial waste.
- ✓ Promeg is 100% recyclable.

Ecorange is the world's first 100% carbon neutral polypropylene sheet. Made from 50 to 100% recycled material. Non-toxic. 100% tree-free. And 100% Australian made. It provides complete environmental responsibility.

SPECIFICATIONS*

Made from post-industrial waste, ecorange is non-toxic and highly energy efficient during its manufacture. It has carbon-neutral certification (#CN172).

| | Recycled | Finish | Gauges + Sheet sizes | | | |
|------------------------------|----------|-----------|------------------------|------------------------|------------------------|-----------------------|
| du eco® | 50% | sand/sand | 0.6mm 665 x 1220mm | 0.8mm 665 x 1220mm | 1.2mm 665 x 1220mm | |
| mar mo® | 100% | sand/sand | 0.38mm 685 x 1220mm | 0.6mm 665 x 1220mm | 0.8mm 665 x 1220mm | 1.2mm 665 x 1220mm |
| tran seco® | 100% | sand/sand | 0.6mm 665 x 1220mm | 0.8mm 665 x 1220mm | | |
| jet eco® | 100% | sand/sand | 0.6mm 665 x 1220mm | 0.8mm 665 x 1220mm | 1.2mm 665 x 1220mm | |
| du eco® FOR OFFSET | 50% | giro/giro | 0.6mm 760 x 1020mm | 0.75mm 760 x 1020mm | 0.95mm 760 x 1020mm | |

*Specifications apply to complete ecorange. Custom gauge and sizes available subject to minimum order quantities. Colour variations may occur which are intrinsic to the material and recycling process.

USES

Every ecorange sheet has a smooth tactile feel. It's super durable and prints beautifully — this material is surface treated and offers excellent ink adhesion for screen, offset and digital printing.*

| Signage | Architecture | Packaging | Retail display | Stationery | Animal health | Horticulture |
|---|--|--|---|---|---|--|
| - Exterior - Interior - Backlit - Safety | - Cladding - Public spaces - Sculptural - Shop fit outs | - Consumer - Promotional - Retail - Medical | - Counter units - Dump bins - Floor stands - Hangsells | - Binders - Carry cases - Dividers - Folders | - Collar cones - Pet carriers - Vaccine packs | - Covers for tubs & pots - Root barriers - Tree guards |

*Products made from ecorange result in 40 times overall energy saving than from virgin material.

SUSTAINABILITY

- ✓ Dueco, marmo and transeco sheet is made from recycled material.
- ✓ Whatever emissions can't be reduced are offset through purchasing certified carbon credits, resulting in a 100% carbon neutral sheet.
- ✓ We recycle all of our post industrial waste as ecorange.
- ✓ Ecorange is 100% recyclable. ♻️

Girobond is a super-smooth polypropylene sheet for UV offset printing. It has a tactile matte finish - resulting in a far more even print, crisper image definition and vivid, true-to-life appearance. It's durable and waterproof, withstanding more abuse than paper or cardboard ever could, while looking stunning.

SPECIFICATIONS

| Finish | | Gauges + Sheet sizes | | | | |
|----------------------------|-----------|----------------------|--------------|--------------|--------------|--------------|
| girobond | giro/giro | 0.27mm | 0.38mm | 0.6mm | 0.75mm | 0.95mm |
| | | 760 x 1020mm | 760 x 1020mm | 760 x 1020mm | 760 x 1020mm | 760 x 1020mm |
| dueco FOR OFFSET | giro/giro | 0.6mm | 0.75mm | 0.95mm | | |
| | | 760 x 1020mm | 760 x 1020mm | 760 x 1020mm | | |

*Custom gauge and sizes available subject to minimum order quantities.

PROPERTIES

Girobond's advanced surface finish provides the best ink coverage and image definition in a polypropylene sheet. It is ideal for double-sided printing even in the thinner gauges.

| Durable | Light weight | Superior ink | UV offset | Foil stamp | Reusable |
|-----------------|--------------|--------------|-----------|------------|------------|
| Water resistant | Flexible | coverage | printing | Varnish | Recyclable |
| ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |

USES

Girobond is a brilliant print option for designers and printers. Its superior print finish, durability and waterproof qualities provide a superb alternative to paper and board. The main uses are listed below.*

| Print | Stationery | Retail display | Promotional | Packaging |
|-----------|---------------|-----------------|------------------|------------------|
| - Books | - Binders | - Counter units | - Shelf wobblers | - Wine |
| - Maps | - Carry cases | - Dump bins | - Shelf strips | - Cosmetic |
| - Posters | - Dividers | - Floor stands | - Hose flags | - Gift |
| - Cards | - Folders | - Hangsells | - Fridge signs | - Pharmaceutical |

*Contact us early in the design process to discuss any ideas you may have for Girobond.

SUSTAINABILITY

- ✓ We make Girobond right here in Australia, reducing the sheet's carbon footprint.
- ✓ We recycle our own polypropylene products and post industrial waste.
- ✓ Girobond dueco for offset is 50% recycled and 100% carbon neutral.
- ✓ Girobond is 100% recyclable. 

Promeg Digital is an advanced polypropylene sheet specifically formulated for wide format digital printing. It comes in opaque white, frosted clear and 50% recycled – giving you even more creative print options.

SPECIFICATIONS

Table with 8 columns for specifications: Colour, Gauge, and Size. It lists options for Opaque white, Frosted clear, and Dueco in various thicknesses (0.38mm to 3.0mm) and sizes (1220 x 2440mm).

PROPERTIES

Promeg Digital is an extruded polypropylene wide format sheet, incorporating a high cosmetic finish and high standards of mechanical and environmental integrity. Its superior digital printing and production capabilities make it the perfect sheet for your next job.

Table with 8 columns listing properties: Digitally optimised, Superior reproduction, Easy to cut & crease, Versatile usage, Quicker & cheaper, More resistant, 100% Australian, and 100% Recyclable. Each property includes a brief description and a green checkmark.

USES

Promeg Digital has been specifically formulated for wide format digital printing. While predominantly used for signage, both interior and exterior, it's applications have now extended to architecture, publishing, advertising, sculpture, packaging and POS retail display.

Table with 7 columns listing application areas: Signage, Architecture, Packaging, Retail display, Stationery, Animal health, and Horticulture. Each column lists specific use cases.

SUSTAINABILITY

- Four bullet points with green checkmarks describing sustainability benefits: local production in Australia, recycling of waste, 100% recyclability, and 50% recycled/100% carbon neutral options.
