

Promeg Digital Kerbeco is made from 50% recycled waste that has been collected from kerbside recycling, reducing landfill.

It is a recycled white sheet, with the odd recycled fleck, but mostly white, ready for you to layer on the ink and bring your vision to life.

Sustainable, Australian made and Carbon Neutral.

DIGITAL KERBECO PROPERTIES

Promeg Digital KERBECO is an extruded PP & HDPE wide format sheet, incorporating a high cosmetic finish and high standards of mechanical and environmental integrity. Its superior digital printing and production capabilities make it the perfect sheet for your next job.
