Dunkley by-election. Corflute® Sign Recycling

Are you looking for a recycling solution for your Corflute® Signs from the Dunkley by-election?

Corex have created a closed-loop manufacturing site designed specifically to recycle and reuse Corflute® waste, making products for tomorrow.

This election, the circular economy warriors at [Corex Recycling](#) want to let you know that Corflute® Election Signage is 100% recyclable, and we do it all here locally in Dandenong, Victoria.

Collect your election signage in the neighbourhood and bring it back to us, or gather it into stockpiles and we will pick it up from a consolidated point.

Preparing your Corflute® Sign for recycling.

Corex Plastics (Australia) Pty Ltd

261 Frankston-Dandenong Road,
Dandenong, Victoria, Australia, 3175

(03) 9238 1300 / info@corex.com.au

ABN. 39 006 418 300

Corex Recycling Pty Ltd

2 Monterey Rd,
Dandenong, Victoria, Australia, 3175

(03) 9238 1358

ABN. 39 126 973 500

Corflute® Election Sign Recycling

Getting your Corflute® Signs back to us.

1. **Small volumes** - Equivalent of a car boot load, or half of an intermediate bulk container (IBC) or less than 100kgs.

You can drop off your Corflute® at our Dandenong South site. Email hello@corex.com.au **1 day before** your planned drop-off with your name, the candidate you are assisting, and approximate volume of material being returned. We will come back to you confirming your booking and information for your drop-off.

2. **Large volumes** - For larger volumes of Corflute®, we can provide transport and Corpak® containers.

Email hello@corex.com.au with a photo of your Corflute® signs for recycling, and we will recommend what process will be most suited.

About Corex® Australia Pty Ltd

Established in 1985, Corex Australia Pty Ltd is the exclusive manufacturer of Corflute®, a proprietary twin wall profile polypropylene sheet used broadly across the signage, display, packaging, and building industries.

Corex has accepted material for recycling of all our products for over 20 years. We pride ourselves on our reduced footprint and have been trail-blazers in recycling and reusing plastics.

About Corflute®

Not all twin-wall plastic sheets are the same. There is only one Corflute®.

Corflute® is a proprietary product manufactured by [Corex Australia](#). Manufacturing products in Australia assists in reducing carbon emissions and energy consumption compared with imported twin-wall plastic alternatives.

We are different to other suppliers. We are the only twin-wall plastic sheet manufacturer with a **closed-loop** approach to production. Last year **we recycled 500 tonnes*** of waste materials returned to us from people using Corflute® in signage and display applications.

We encourage people to bring Corflute® back to [Corex Recycling](#) for reuse in new products. It is in our DNA to reuse and recycle all materials that we produce and we only manufacture materials that can be recycled by Corex Recycling.
