

## Corflute® Truckboards®

We manufacture a wide range of Corflute® Truckboards®.

Corflute® Truckboards are used to separate freight and protect your important stock from tears and other damage in transit.

Designed to be used again and again, Corflute Truckboards are a highly durable and long-lasting alternative to cardboard stock protection. At the end of their life, return your Truckboard to Corex for recycling and reprocessing.

Printable, durable, and sustainable; made from 100% recyclable polypropylene.

- Usual sheet thickness 8mm or 10mm Corflute®
- Extruded to suit your requirements
- Option of square or rounded corners
- Standard colours including blue, yellow, green, white, red & recycled black
- Customise to your corporate colour making your Truckboard easily identifiable
- Print your branding with flexographic, screen or digital printing
