

Promeg Kerbeco is made from 50% recycled waste that has been collected from kerbside recycling, reducing landfill. A 100% recyclable substrate that you can put into your recycling bin or return to us here, at our plant in Melbourne.

Recycled white sheet, with the odd recycled fleck, but mostly white. Ready for you to layer on the ink and bring your vision to life. Sustainable, Australian made and Carbon Neutral.

Great for all the possibilities of Promeg including display, stationery, signage & packaging but with an even better environmental story.

Made From 50% Recycled Kerbside Waste

- ✓ Green Tag Certified
- ✓ Carbon neutral
- ✓ 100% Recyclable
- ✓ Reduces landfill
- ✓ Sustainable
- ✓ Australian made

SHEET SPECIFICATIONS

	Recycled	Finish	Gauges + Sheet sizes		
			0.6mm 665 x 1220mm	0.8mm 665 x 1220mm	1.4mm 650 x 1360mm
kerbeco®	50%	sand/sand			

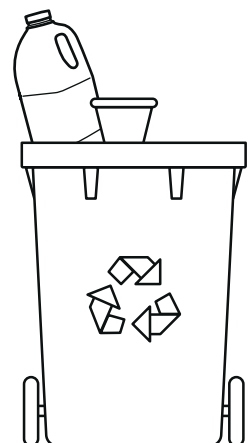

*Specifications apply to complete ecorange. Custom gauge and sizes available subject to minimum order quantities. Colour variations may occur which are intrinsic to the material and recycling process.

PART OF THE ECORANGE FAMILY

Ecorange is the world's first 100% carbon neutral polypropylene sheet. Made from 50 to 100% recycled material. Non-toxic. 100% tree-free. And 100% Australian made. It provides complete environmental responsibility. Ecorange is non-toxic and highly efficient during its manufacture. It has carbon-neutral certification (#CN172).

SUSTAINABILITY

- ✓ Emissions that can't be reduced are offset through purchasing certified carbon credits, resulting in a 100% carbon neutral sheet.
- ✓ We recycle all of our post industrial waste as ecorange.
- ✓ Ecorange is 100% recyclable. ♻️
